INFORMED CONSENT FOR INVASIVE, DIAGNOSTIC, MEDICAL & SURGICAL PROCEDURES

I hereby permit __________________________________________________________________________ (Name of Attending Physician or Authorized Health Care Provider) or his/her Associate Attending Physician of the same service, and assistants as may be selected and supervised by him/her to perform the following medical treatment, operation, or procedure (hereafter called the "procedure"):

Arthrocentesis (Joint Tap)

The procedure has been explained to me and I have been told the reasons why I need the procedure. The risks of the procedure have also been explained to me. In addition, I have been told that the procedure may not have the result that I expect. I have also been told about other possible treatments for my condition and what might happen if no treatment is received.

I understand that in addition to the risks described to me about this procedure there are risks that may occur with any surgical or medical procedure. I am aware that the practice of medicine and surgery is not an exact science, and that I have not been given any guarantees about the results of this procedure.

I have had enough time to discuss my condition and treatment with my health care providers and all of my questions have been answered to my satisfaction. I believe I have enough information to make an informed decision and I agree to have the procedure. If something unexpected happens and I need additional or different treatment(s) from the treatment I expect, I agree to accept any treatment which is necessary.

I agree to have transfusions of blood and other blood products that may be necessary along with the procedure I am having. The risks, benefits and alternatives have been explained to me and all of my questions have been answered to my satisfaction.

If I refuse to have transfusions I will cross out and initial this section and sign a REFUSAL OF TREATMENT form.

I agree to allow this facility to keep, use or properly dispose of, tissue and parts of organs that are removed during this procedure.
