

Inpatients in the ED:

there will be an inpatient team in the ER around the clock starting tomorrow to take care of these patients.

Conference room/break room:

we were able to procure suite c conference room for the ed attendings, residents and pa's. We will be putting the food in here. When you are done feel free to drop some off to the nursing lounge. We know there has been a few instances where there was no food for the physicians staffing we are trying to help with this situation. That being said its a team effort so please share once you have all eaten. There should be more than enough to go around.

Parking:

- Daily parking at the 324 Winthrop St. Lot on a 24hr/7day schedule, at **no cost to essential on-site workers.**
- A **Downstate ID Card is required** upon entering the lot. To maintain lot utilization records:
 - Customers who are NOT monthly parkers will receive a daily claim check (cost at \$0; there will be no payment due).
 - Monthly parkers will continue to have their Downstate sticker scanned.

PPE:

So there is a shortage on some items. The gowns are back down to one a shift. The face shields we are not getting anymore of. Luckily Dr Arquila has provided us all with goggles so continue to wear those. If you have a face shield you can clean and reuse it. N95's they are asking that we wear them for 2 shifts but if visibly soiled then can get a new one next shift. I would cover with a surgical loop mask to keep it clean during your shift.

I know some of you have asked about wearing your own N100. Dr Augenbraun (hospital ID) had said that is fine.

We are doing everything we can to procure more PPE as fast as possible and I hope to have a better update tomorrow.

We are trying to secure N100's from local hardware shops so if you know of anywhere please let us know so we can buy their stock. We have called a bunch of places in Brooklyn today without much luck.

Computers:

We have more computers in the ED. The inpatient teams will need access to some of them as well in the ER.

We ordering folding stools for the standing computers as well, so we will get those out as soon as they arrive.

if you have any questions at any time please call or email us!!
