FORM B-1

I hereby permit _____ (Name of Attending Physician[s] or Authorized Health Care Provider[s]) or their Associate Attending Physician[s] of the same service, and other authorized assistants, house staff or other providers, some of whom may be selected and supervised by them to perform the following medical treatment, operation, or procedure (hereafter called the "procedure").

Hemodialysis

The procedure has been explained to me and I have been told the reasons why I need the procedure. The risks of the procedure have also been explained to me. In addition, I have been told that the procedure may not have the result that I expect. I have also been told about other possible treatments for my condition and what might happen if no treatment is received.

I understand that in addition to the risks described to me about this procedure there are risks that may occur with any surgical or medical procedure. I am aware that the practice of medicine and surgery is not an exact science, and that I have not been given any guarantees about the results of this procedure.

I have had enough time to discuss my condition and treatment with my health care providers and all of my questions have been answered to my satisfaction. I believe I have enough information to make an informed decision and I agree to have the procedure. If something unexpected happens and I need additional or different treatment(s) from the treatment I expect, I agree to accept any treatment which is necessary.

I agree to have transfusions of blood and other blood products that may be necessary along with the procedure I am having. The risks, benefits and alternatives have been explained to me and all of my questions have been answered to my satisfaction.

If I refuse to have transfusions I will cross out and initial this section and sign a REFUSAL OF TREATMENT Form C.

I agree to allow this facility to keep, use or properly dispose of, tissue and parts of organs that are removed during this procedure.

I explained the risks, benefits, side effects and alternatives of the _____(Identify Procedure) to the above-named patient for treatment of _____(Identify Diagnosis).

As I explained to the patient, the risks, benefits, side effects, alternatives, intended goals and likelihood of success of the procedure to achieving health care goals (including potential problems with recuperation) include but are not limited to:

Risks and side effects of the proposed care:
Low blood pressure, infection, bleeding from access site, headache, convulsions.

Benefits: Remove uremic poisons and extra fluid. Prolong life in people with kidney failure.

Alternatives (including their risks, side effects and benefits): Peritoneal dialysis or kidney transplantation.
(Risks: infections, surgery. Benefits: greater freedom and improved quality of life.)

Risks related to not receiving the procedure: Electrolyte problems, uremia and death.

I provided the above-named patient with the opportunity to ask questions. I have answered the questions asked and it is my professional opinion that the patient understands what I have explained.

IF SOMEONE IS MAKING HEALTH CARE DECISIONS FOR THE PATIENT, THE ATTENDING PHYSICIAN MUST CERTIFY THAT THE PATIENT LACKS DECISIONAL CAPACITY.

ATTENDING PHYSICIAN'S CERTIFICATION

I have examined the above-named patient and it is my professional medical opinion that this patient lacks decisional capacity to make informed health care decisions. I understand that if this patient has appointed a health care agent to make these decisions, a copy of the patient's Health Care Proxy must be inserted in the medical record. If the patient's surrogate has consented to the proposed treatment for the patient, the surrogate has signed the consent form.
